

ONLINE INTERACTIVE SEMINAR FOR PROSPECTIVE INTERNATIONALLY-TRAINED WORKERS

Project Synopsis

Time: >12 months

Complexity: High

Cost: >\$100,000

This project produces an online, interactive and affordable seminar allowing applicants to complete the requirements to get certified in a regulated occupation at their own pace, regardless of their physical location.

PROJECT DESCRIPTION

This project designs and delivers an online, interactive and affordable seminar for prospective ITWs on how to get certified. This online seminar may act as an educational tool to accelerate an ITW's readiness to work in Canada and allow applicants to practice in a regulated occupation sooner upon arrival.

KEY OUTCOMES

- ITWs can demonstrate competencies outside of Canada, ensuring they spend less time to become certified.
- Canadian regulators can accredit ITWs earlier.
- Employers have a greater pool of skilled applicants to select from when filling vacant positions.

KEY CONSIDERATIONS

- Develop online templates and module storyboard.
 - Review/update module storyboard with feedback from subject matter experts.
- Develop a prototype module.
 - Review/update prototype module with subject matter expert feedback.
- Launch pilot, monitor and provide support.
- Survey pilot participants for feedback.

PROJECT COMPONENT

- Design, develop and deliver an interactive seminar that would assist ITWs fulfill the certification requirements online.
